Barbara Silverstone

July 28, 2020

Dear Representatives Davis, Larson, and Neal,

The National Organization of Social Security Claimants' Representatives (NOSSCR) is pleased to endorse the Fairness for Seniors and People with Disabilities During COVID-19 Act. If enacted, this legislation will protect the financial security and Medicaid benefits of many Social Security beneficiaries, and allow the Social Security Administration to focus its attention on the workloads that are most important to beneficiaries, claimants, and their representatives.

Thank you for your attention to Social Security, the backbone of the American social insurance system and a crucial aspect of the lives of nearly 70 million beneficiaries and their families.

Sincerely,

Barbara Silverstone
Executive Director
