

December 22, 2020

The Honorable Steven Mnuchin, Secretary
U.S. Department of Treasury
1500 Pennsylvania Avenue, NW
Washington, D.C. 20220

The Honorable Jovita Carranza, Administrator
U.S. Small Business Administration
409 3rd Street, SW
Washington, DC 20416

RE: Please Include as Many Deserving 501(c)(6) Nonprofits as Possible in the PPP

Dear Secretary Mnuchin and Administrator Carranza:

On behalf of the American Society of Association Executives (ASAE) and its membership of more than 48,000 association executives and industry partners representing 7,400 organizations, thank you for your leadership during this challenging time and for your stewardship of critical support initiatives, such as the Paycheck Protection Program (PPP) and Economic Injury Disaster Loan (EIDL) program. Through these and other vital programs, Congressional action and your efforts have proven critical to shield our economy and collective livelihoods from permanent damage or failure.

We are extremely grateful to Congress for providing many nonprofit associations and other 501(c)(6) organizations eligibility under the PPP. Association access to these important loans has been ASAE's primary objective since the program was created in March. Thankfully, the provisions passed within H.R. 133 will no doubt provide many associations across the country the long-awaited relief they need to avoid bankruptcy, sustain employee welfare and continue to provide resources, education and support for America's industries and professions.

As you work to expeditiously implement these and other changes, ASAE respectfully urges you – within the flexible parameters put forth by Congress – to implement changes that include as many deserving 501(c)(6) nonprofits as possible in the PPP.

We are highly concerned there are many deserving associations that will find themselves still shut out from PPP loans based on inappropriately broad-brush application of the eligibility criteria as outlined in Section 318. This section specifies that a 501(c)(6) organization is eligible for PPP loans if:

- The organization does not receive more than 15 percent of receipts from lobbying activities;
- The lobbying activities do not comprise more than 15 percent of the organization's total activities;
- The cost of lobbying activities of the organization did not exceed \$1,000,000 during the most recent tax year that ended prior to February 15, 2020; and
- The organization has 300 or fewer employees.

We believe that, without appropriate guidance on how to measure "receipts from lobbying" and "lobbying activities," numerous nonprofit associations will remain locked out of the PPP despite dedicating modest resources to lobby the government. Additional guidance on these issues is critical to ensure consistent, fair and inclusive application of these eligibility requirements.

First, guidance from the Treasury Department is urgently needed as to the definition of “lobbying activities.” 501(c)(6) nonprofits disclose lobbying activity in multiple ways, such as under the Lobbying Disclosure Act (LDA) or via an IRS Form 990. Further, organizations with federal lobbying activity below that required to register as an organization engaged in lobbying under the LDA report their federal lobbying expenses only through the IRS Form 990. Definitions of what constitutes “lobbying” differ under the LDA and under IRS reporting requirements for the Form 990. For example, the LDA defines lobbying activities as compensated contacts with covered federal officials made to influence legislative or administrative action, and preparation efforts in support of such contacts. The LDA does not include communications with the public or any segment of the public in an attempt to influence their views with respect to legislative matters or elections, but Section 162(e) of the Internal Revenue Code does classify such activities as “lobbying” for purposes of Form 990 reporting.

Although 501(c)(3) nonprofit organizations separately report these “grassroots lobbying” activities from “direct lobbying” expenditures to influence a legislative body in Part II-A of Schedule C of the Form 990, 501(c)(6) organizations report their lobbying activities on Part III of Schedule C, which does not separate out those expenditures. Rather, the Form 990 requires 501(c)(6) associations to report their combined Section 162(e) nondeductible lobbying and political expenditures. Thus, reported “lobbying” expenditures of associations on the Form 990 may include a substantial amount of the bread and butter activity of associations in communicating with and educating their members about pending legislative initiatives, even though such activities fall outside of core lobbying activities as defined in the LDA.

Moreover, for 501(c)(6) associations and other nonprofits, there is no IRS mechanism in place to record lobbying or political activities as a revenue-generating function. (Indeed, these activities generally produce no revenues for associations.) As a result, we believe the “receipts from lobbying” provision will create confusion among lenders and applicants. **Guidance is therefore also urgently needed as to the eligibility provision capping “receipts from lobbying activities.”**

As Congress requires new processes to be in place by the end of the year, we urge you to consider ASAE’s proposed steps for implementation. Specifically, please issue a guidance document that clarifies eligibility criteria:

1. Clearly define 501(c)(6) nonprofits “receipts from lobbying” as revenue generated by the nonprofit for the express purpose of financing lobbying activities;
2. Define “lobbying activities” as having the same meaning as set forth under the Lobbying Disclosure Act; and
3. Clarify that the timeframe parameters for the third criterion (the most recent tax year that ended prior to February 15, 2020) should also be used as the period for measuring the organization’s percentages of expenditures and receipts relating to “lobbying activities” under the first two criteria.

These necessary steps will help direct essential relief to deserving 501(c)(6) organizations that exist to support every industry and serve as a foundational instrument of American economy, society and democracy. No legitimate, well-purposed associations or their employees should be left in the cold simply because they exercise their First Amendment rights to advocate on behalf of the industries or professions they represent.

Thank you for your invaluable service to our country and for your respectful consideration to include as many deserving 501(c)(6) nonprofits as possible in the PPP. Enclosed, please find recent survey data from 501(c)(6) executives and a September 2020 community sign-on letter with 2,310 signatories to call for equitable PPP expansion. If you or your staff have questions, please contact Mary Kate Cunningham, CAE, senior vice president of public policy for ASAE, at mcunningham@asaecenter.org or 202-626-2787.

Sincerely,

Susan Robertson, CAE
President and CEO
American Society of Association Executives

The Honorable Nancy Pelosi, Speaker
United States House of Representatives

The Honorable Mitch McConnell, Leader
United States Senate

The Honorable Charles Schumer, Leader
United States Senate

The Honorable Kevin McCarthy, Leader
United States House of Representatives

RE: Pass Further COVID-19 Relief Legislation and Support 501(c)(6) Nonprofit Organizations

Dear Speaker Pelosi, Leader McConnell, Leader Schumer and Leader McCarthy:

The undersigned 2,310 organizations, which represent dozens of industries and millions of workers across the economy, implore you to **expand equal eligibility under the Paycheck Protection Program (PPP) to include 501(c)(6) nonprofit organizations**, such as trade associations, professional societies, chambers of commerce, business leagues and others, in any prospective COVID-19 relief measure.

Since passage of the CARES Act (P.L. 116-136), 501(c)(6)s have been without this essential relief made available to almost every other sector of the economy. As their reserve funds continue to deplete, any more time without aid puts our community in jeopardy.

We are grateful the House-passed *HEROES Act* includes a provision to expand PPP access to all 501(c) nonprofits and that Senate Republicans introduced the *HEALS Act* and subsequent legislation, which would expand the Program to certain 501(c)(6) organizations. The Senate language, however, includes inequitable employee caps and vague lobbying restrictions for 501(c)(6) organizations relative to all other borrowers.

In addition to providing for 501(c)(6) eligibility, we urge you to enact the following PPP provisions:

1. Reauthorize until at least March 31, 2021;
2. Include 501(c)(6) nonprofits in the so-called “second draw” program;
3. Expand the definition for eligible “receipts” within the “second draw” program to include in-person event cancellations and lost revenue from certification programs and other education; and
4. Apply lobbying language as outlined in Section 90001 of the *HEROES Act* and included in the broadly bipartisan *Local Chamber, Tourism, and 501(c)(6) Protection Act of 2020* (H.R. 6697).¹

We wrote you in [April](#) and [July](#) to advocate critically needed support that our community needs. For many 501(c)(6)s, prospective access to PPP funds is the singular option to avoid bankruptcy, sustain employee welfare and continue to provide resources, education and support for America’s industries and professions.

Nonprofit associations and other 501(c)(6) organizations are major employers that provided at least \$18.3 billion in wages and salaries² in 2019. They also lead countless activities that benefit America’s workforce and economy. These include, but are certainly not limited to, post-secondary skills training and career development for workers across industry; standard-setting for everything from children’s toys to building construction; and robust professional certification programming to help ensure consumers have confidence in the experts they consult for their health, financial wellness, legal concerns and other vital needs.

Impact Snapshot: COVID-19 and the 501(c)(6) Nonprofit Community

According to an August 2020 survey of 501(c)(6) nonprofit leaders by the American Society of Association Executives (ASAE) Research Foundation, more than 65 percent of respondents report a current and

¹ H.R. 6697. Local Chamber, Tourism, and 501(c)(6) Protection Act of 2020. Section 2(1)(A)(iii). 116th Congress.

² Bureau of Labor Statistics. 2018 Annual Averages. Quarterly Census of Employment and Wages (QCEW).

projected loss of at least a quarter of their total budgets. More than 26 percent of respondents expect to lose at least half of their budgets, while seven percent of respondents expect to lose three-quarters or more.

Unfortunately, the data demonstrate that many nonprofit associations and other 501(c)(6) organizations have little or no financial cushion to carry them through this devastating time. Thirty-four percent of respondents expect to use half or more of reserve funds to cover current and projected losses. **More than 12 percent report insufficient reserves.**³ Extrapolated out to the entire 501(c)(6) community, more than 7,500 employers could cease operations without swift financial aid.⁴

The survey also includes testimonials from 501(c)(6) nonprofits across America that detail staff and financial devastation from event cancellations, sharp membership revenue declines and other damages:

- **National Ground Water Association – Westerville, OH**
“Most of our education cannot be done virtually, [as it’s] scientific field work. As a result, we have suffered tremendous financial losses and the members of our association have lost education along the way. With a 40-percent drop in revenue, all aspects of the association have been cut: staff, education events, youth education programs, member support services, etc.”
- **California Association of School Psychologists – Sacramento, CA**
“We are a professional association of school psychologists who provide mental health services and special education assessments to school children. Approximately half of our budget is derived from annual educational events for school psychologists. All staff were furloughed at least 20% for the summer. One staff person was laid off in July. Further furloughs / cuts may be necessary.”
- **The Institute of Internal Auditors – Lake Mary, FL**
“Our certification testing venues were shuttered for several months, which effectively shut off our cash flow and hindered our ability to serve our members and the public.”
- **Electronic Security Association – Dallas, TX**
“[Cancelling] our trade show had a significant negative impact on revenue. Other areas negatively impacted are membership renewals, training and certifications. Established in 1948, ESA is the largest association in the U.S. representing the electronic life safety and security industry.”
- **Home Builders & Remodelers of Central New York – Syracuse, NY**
“Since large events have been shut down, we are left with almost no income this year. Something that needs to be made clear is that trade associations work to provide our elected officials with industry information to try to ensure the laws that are passed do not have unintended consequences. That should not be considered lobbying, that should be good governance.”

These and thousands more nonprofit associations and 501(c)(6) organizations need your full support.

Thank you for your consideration and continued service to our country during this challenging time. If you have questions regarding the 501(c)(6) nonprofit community, please contact Mary Kate Cunningham, CAE, vice president of public policy for ASAE (mcunningham@asaecenter.org; 202-626-2787).
