X status on MN Fee schedule indicates a code that is unique to the federal Medicare fee schedule. If the service is compensable for workers' compensation under Minnesota Statutes, section 176.135, the maximum fee for the service is governed by part 5221.0500, subpart 2, items B to F, and Minnesota Statutes, section 176.136, subdivision 1b, if the code has no positive RVUs. If positive RVUs are listed, the maximum fee for the service is the amount established according to the formula in subpart 1b. (Rate payable at 85% of a customary example; in this case M-Health Fairview system, except CPT codes 92531, 92532, and 92534, which are based on rates from Open Cities Health Center.)
