^{1/} Allowance and denial rates equal 100%.

^{2/} Includes Social Security Disability Insurance (SSDI, Title II) only as there is no Supplemental Security Income (SSI, Title XVI) in Puerto Rico.

^{3/} EST DDS data comes from four extended service team sites in Arkansas, Mississippi, Oklahoma, and Virginia. Workload from State DDSs is transferred into these sites.

^{4/} Federal Site data comes from the following SSA sites: Office of Central Operations; International Payment Service Center; Guam; the Virgin Islands; and Disability Program Branches in the Atlanta, Chicago, Dallas, Kansas City, New York, Philadelphia, and San Francisco Regions.

^{5/} The federal sites that have zero allowance rates are sites where they do not have their own legacy system and complete cases by remotely logging into the legacy system of the state they are assisting. Therefore, the allowance information rolls up into the state they are assisting.

Note: Allowance rates are on determinations completed by State Disability Determination Services (DDSs) and other components which make disability determinations. For workload balancing issues, cases may be transferred to other states or to SSA components for determinations. Determinations are not always done in the applicants' state of residence.

Cases processed in the ESTs and Federal sites DO NOT include cases under QDD, CAL, and other fast track case screening. Accordingly, allowance rates in those sites are NOT comparable to regular State DDSs. Allowance rates equal to zero indicate no cases. High rates may indicate very small numbers of cases.
